OBJECTIVE

Hybrid Generative AI Engineer and Product Designer blending cinematic storytelling with rigorous technical automation. Proven track record in orchestrating multi-model AI workflows (Wan 2.2, Veo 3, Higgsfield, Kling) and building node-based logic pipelines to scale high-fidelity video production. Deeply obsessed with automation, temporal consistency, and maintaining a high-ownership mindset from prompt engineering to full-stack infrastructure deployment.

PROFESSIONAL EXPERIENCE

NXTWAVE DISRUPTIVE TECHNOLOGIES PVT LTD  05/2025 – Present | Hyderabad, India

Generative AI Engineer and Creative Lead

AI Production Leadership: Built and led AI channels across multiple regions, scaling 14 digital channels from 0 to 100K+ (Avg) followers and orchestrating the production of over 2,000 videos and 100+ character-consistent AI advertisements.

Next-Gen Video Scripting: Pioneered structured JSON automation scripting for state-of-the-art models (Google Veo 3, Wan 2.2) to programmatically control camera angles, motion paths, color grading, and native audio lip-syncing in english, hindi, telugu, tamil and kannada languages.

Temporal Consistency & Model Synthesis: Mastered digital human AI pipelines using Wan 2.2 Animate Avatar layers and hybrid workflows blending open-source (Flux) with proprietary engines (Higgsfield, Kling O1) for seamless motion capture and 95% character consistency.

Workflow Automation & Tool Building: Developed internal enterprise tools to streamline production, including AutoEdit (AI infographic/typography automation), WhatThePrompt (preset pipelines for consistent visual styling), and Content Nexus (data/analytics tracking).

Efficiency Scaling: Engineered an 8-Element Prompt Structure Framework and automated pipelines that slashed asset creation time by 90%, enabling the team to output 20–30 high-quality assets daily.

CrestLogic Systems PVT LTD 11/2024 – 03/2025 | Telangana, India

Freelance

Branding, User Interface Design, marketing funnel for billjot.

Andhra Pradesh Solar Power Corporation Pvt Ltd 07/2024 – 10/2024 | Vijayawada, India

Product Design Engineer (Consultant)

Ui Design, Web Design, Fullstack Web development

Traboda Solutions PVT LTD  08/2023 – 07/2024 | Kollam, India

Product Engineer (Intern)

UI Designer, Hardware Security Researcher, Fullstack Web Dev

Redantio Solutions PVT LTD  01/2022 – 02/2023 | Kollam, India

Design and Development Engineer (Intern)

Ui Designer, Figma Tutor, Graphic Design, Hardware Security Research and Web Dev

SKILLS

AI Video & Media Models

Wan 2.2/2.7 (Qwen), Google Veo 3, LTX, Flux, Higgsfield Cinema Studio, Kling O1/O3, Gemini Flash, Grok Video, Suno AI.

AI Research

API- OpenAI, LangChain, Hugging Face | Development - ChatGPT, Claude, PerplexityLLM - GPT 3 , GPT 4 | Image Generation - Flux Models, SDXL, SD 1.5 and Custom Lora Trainings | Video Generation - ChatGPT, Hunyuan Models

Media

Photoshop, Illustrator, Canva, Figma Inpaint, Premiere Pro , Inshot

Pipelines and Automations

ComfyUI, Node-based workflow logic, JSON scripting for AI APIs, ControlNets, IP-Adapters, Temporal Upscalers, Python environments and nodejs environments, GitHub version control, Supabase, PostgreSQL, React Native.

Full Stack Development

React, NextJS, Typescript, Python, Javascript, Django, GraphQL, REST, NodeJS, Framer Motion,

Cinematic Post-Production

Video editing suites, advanced color grading, sound design/syncing, digital audio workstations (FL Studio), Remotion library.

OPEN SOURCE

CHAYA UI [↗](#)

React component library

- Chaya UI is a modern, functional design system and component library for React made with Nextjs and TailwindCSS
- I have contributed to its design, development, and optimization, collaborating directly with the creator and board members.
- Additionally, I have created several exclusive and custom components specifically for the creators.

Engineerudu [↗](#)

FOSS Community

Building Andhra pradesh's first Free and Open Source Community.

ACHIEVEMENTS

- Took 14+ AI Driven Social media channels to 100k followers
- Trained over 500+ people and upskilled them with AI.
- GSOC 2024 Qualified
- Finalists & Runner Up, Kavach Cyber Security Hackathon, 2023
- First Runner Up at Hardware CTF. NULLCON GOA 2022
- Galactic Impact Award, NASA Space Apps Challenge, 2023
- Local Award for Local Impact Award, NASA Space Apps Challenge 2022

EDUCATION

B.Tech (Electronics and Communication Engineering)

2024 – 2025 | Vijayawada, Andhra Pradesh

Koneru Lakshmaiah Educational Foundation

- Actively engaged and participated in the activities of amFOSS - Free & Open Source (FOSS) student community
- Mentored students in team bi0s, India's No.1 Ranked CTF Team.
- Took Part in Developing college portals
- Won 14 Hackathons

B.Tech (Electronics and Communication Engineering)

2021 – 2024 | Kollam, Kerala

Amrita University
